Beautifully enhanced with them sugar coated lips
We'll leave you hypnotized wanting every single bit
Don't you dare stop, don't you dare stop til I hit the spot
Sugar rush

Baby girl, trade you up for an upgrade
Silly toy, blowing up like a grenade
You can hate, discriminate but you won't get my sweet
taste
Oh no, Blog about it on Myspace

I will be your lovely death,
I'll eat you until there's nothing left
I will be your lovely death,
I'll eat you until there's nothing left

Beautifully enhanced with them sugar coated lips
We'll leave you hypnotized wanting every single bit
Don't you dare stop, don't you dare stop til I hit the spot
Sugar rush

Beautifully enhanced with them sugar coated lips
We'll leave you hypnotized wanting every single bit
Don't you dare stop, don't you dare stop til I hit the spot
Sugar rush

Just leave me be; suck the life right out of me
Just leave me be; stay away far from me
Sweet and lush, love is like a sugar rush
Just can't get enough of your toxic love

I will be your lovely death,
I'll eat you until there's nothing left
I will be your lovely death,
I'll eat you until there's nothing left
Beautifully enhanced with them sugar coated lips
We'll leave you hypnotized wanting every single bit
Don't you dare stop, don't you dare stop til I hit the spot
Sugar rush

Beautifully enhanced with them sugar coated lips

We'll leave you hypnotized wanting every single bit
I'll give you what you want, I'll make your jaw drop
Cause I like it on top til I make your heart stop

I give up, don't know what to do,
This is obviously so untrue
You can never find the truth
When you start to fall in love it's like an addicting drug
You can never get enough

Through the sun; piercing with them devil eyes
One kiss of my lips will leave you mesmerized
Give you what you lack, turn your world black
Sit back and relax, sugar rush, sugar rush

1, 2, 3, 4

Beautifully enhanced with them sugar coated lips
We'll leave you hypnotized wanting every single bit
Don't you dare stop, don't you dare stop til I hit the spot
Sugar rush

I'll give you what you want, I'll make your jaw drop
Cause I like it on top til I make your heart stop
Don't you dare stop, don't you dare stop til I hit the spot
Sugar rush

I'll give you what you want, I'll make your jaw drop
Cause I like it on top til I make your heart stop
