

40 Below Summer "Falling Down"

Visit "[Falling Down](#)" on MotoLyrics.com

It's gonna bite today

(Right)

To open a can of pain

(Wrong)

Sun scorched and blistering

(Run)

Do you know that it's all

(Gone)

Kiss my eyes shut to bash it in

It's just another payment

To how we live, how we dream, how we breed

Low rent up in the basement

The sky conforms to the surface

What's the purpose, everything is worthless

I feel a crack in the structure

It's time bleed through suffer

And I fall into myself

(And I fall myself, I fall)

I fall, I fall, I fall

Life keeps on pushing me under

(I am)

Ripping my whole world asunder

(I can)

Death is what keeps me in motion

(Will I)

Drown in this pain like an ocean

I'm falling down again

(Now)

Into the ground again

(Low)

Don't tell me what to do when I take you

And I'm gonna make you

You had in a moment what the rest of us

Need to believe isn't hopeless

Take a look at the scoreboard it's 1 nothing them

So I guess you need move more
We'll make a crack in the sun
If it feeds you the answer

And I fall into myself
(And I fall myself, I fall)
I fall, I fall, I fall

Life keeps on pushing me under
(I am)
Ripping my whole world asunder
(I can)
Death is what keeps me in motion
(Will I)
Drown in this pain like an ocean

All in my head but the waiting is over
Your thoughts can't tread into my disclosure
I'm just a face, nameless and silent
I'm such a waste that's why

And I can't erase I'm feeling all this
And I cannot frame and hide behind this

(Pain)
I did it one more time for you
And now I'm falling down again
(Pain)
I did it one more time for you
And now I'm falling down

(Pain)
I did it one more time for you
And now I'm falling down again
(Pain)
I did it one more time for you
And now I'm falling down again

Life keeps on pushing me under
[Incomprehensible]
Ripping my whole world asunder
[Incomprehensible]
Death is what keeps me in motion
[Incomprehensible]
Drown in this pain like an ocean, kill
