Come step up to the plate
And please allow me to demonstrate
As you step into the rear of the sideshow bus
Strap it on 'cause it's time to get a head rush

Twist the cap and tap the bottle
That's my motto, here it comes full throttle
Straight up at ya from 40 below
Freezing, you're bleeding as you feel the winds blow

Cannot stop this
You can not break this
You can not crush this
Get your ass out the way

Cannot stop this
You can not break this
You can not crush this
Get your ass out the way

Cannot stop this
You can not break this
You can not crush this
Get your ass out the way

I see you shakin' 'cause your time's up
Wreck that ass with my starting line-up
Bolos and body blows, hooks and haymakers
Re-animate, suffocate your breath taker

Kick down your doors, excuse the intrusion
Swift and clean over the execution
Quick get shot, you're rocked, it'll bend you over
This is the sideshow, bitch, I thought I told ya

Cannot stop this
You can not break this
You can not crush this
Get your ass out the way

Cannot stop this
You can not break this

You can not crush this
Get your ass out the way

Cannot stop this
You can not break this
You can not crush this
Get your ass out the way

You can't escape the disease of the freeze
Of the sideshow release, come and bring you to your
knees
This is the last straw, I can't control, I explode
Now I got you in a choke hold

You can't try to get off, you'll get lost, you'll get tossed
When I'm in your face full force
You can't try to get passed, you won't last
It's your ass, when I rip you in half

I know I ignite like a pyro, burn inside so
Step into the sideshow
I know, gonna go psycho, might go
Step into the sideshow

I know I ignite like a pyro, make 'em burn when they
Step into the sideshow
Gonna cut 'em in half really tight, so kickin' your ass
when ya
Step into the sideshow

Don't get me hot, you'll catch a right cold, check the
eyes, bro
Step into the sideshow
Punk sucker, gonna front on the ride, motherfucker
Step into the sideshow

I'm bringin' all the pain straight out
I'm bringin' all the pain straight out
I'm bringin' all the pain straight out

Step into the sideshow
Step into the sideshow
Step into the sideshow
Step into the sideshow
Step into the sideshow
