I KNOW YOU WANT IT LYRICS

(Pusher DeVille)

i know you want it. your body language, it spoke to me,
see you in anguish, you in need of something, dont try
to hide it from me, see through your exo-skeleton,
open your mind to me, you i know you want it, no it aint
hard to tell, the writings on the wall, aint no need to
rebel, know you got big jewelry, know you got plenty
furs, if you got any questions, i got the answers.

(Bo Benton)

Im up in the club with my girls we sippin, in the vip on
that goose straight trippin, got my Cavalli jeans on,
skin tight so you know its on, my boots stay high, my
girls we fly, spy bags crocodile and chrome, i see you
looking at these lips lips, wishing for a kiss, and i bet
you got a woman at home.
i know you're wet and dreamin, got you sprung
addicted fiendin, hands all over me you're teasin, boy
wake up because you're dreamin

HOOK- (feat. LIL RONNIE)

I know you want me boy, but you cant get it, i know you
want me boy, nope you cant hit it, all up in the club
screamin girl let me hit it, like a G-4 i wanna fly right up
in it, i know you want me boy but you cant get it, i know
you want me boy, nope you cant hit it, all up in the club
screamin girl let me hit it, like a slip'n slide i wanna
dive right up in it
