Release the pressure from my shoulders
And give me what I want so bad
I'm not waiting 'till I'm older
I want all I've never had
I'm blond and even dummer then you're thinking,
And you should know

Chorus:

That I wish I could be a little famous
and I do what it takes to be a star
And I wish I could be a little famous
And I'm not turning back I've come to far

I'm not waiting any longer
Yes I'm tired of feeling small
Now I'm back and I am stronger
I've got some but want it all
I'm blond and even dummer then you're thinking
And you should know

Repeat chorus
