Verse1:

Now Baby never trip on me coZ, I will never never
gonna trip on you
Everynite gonna be you and me, let us stay together
for ever.
Everynight gonna be you on my mind.
Dreaming about you every minute and seconds making
you my girl,
nothing so difficult.
Baby I got you and I want you

Hook:

Have you ever heard the way the wind blows
Have you ever seen the way the sun shines
Have you ever felt the drops from the sky
when the rain keeps on falling everyday and night.

Verse2:

and iâ'm watching all the little dots
and iâ'm counting all the things we used to do
saying, I got to make my way down
doing all the things we used to say all the time
flipping and then tripping with the things I do
saying this gonna be the time for you and me
Baby iâ'm waitng for the day, you gonna be my wife

So I came out to the end
and I picked up my pen and a piece of paper and then I
decided to write this song to you
and to wish you a merry christmas and a happy new
year baby
and everything is from my heart.
so you gonna help me sing this song...yeeeee

Hook:

Have you
Have you ever heard the way the wind blows
Have
Have you ever seen the way the sun shines

Have
Have you ever felt the drops from the sky
Have you
when the rain keeps on falling everyday and night.
Have you
Have you ever felt the way I loved you
Have

Have you ever felt the way I'm doing it?
Baby come on come on come on it is christmas time

Now baby everynite and day, you know what I think
girl?
i think aba you and I say, we live in an ectasy

Lets stay together like the dodeful and the butterfly

buttom of my heart
