

Blindman's Holiday

"Take Back Doug Graham"

Visit "[Take Back Doug Graham](#)" on MotoLyrics.com

Relaxing revolt sounds
Distant arm chair delight
Solemn worry whethers
And hold you with all my might
Breathe the mist in the summer sun
Winter air around
Collection for the righteous one
Deliver me from sound
Rhythm run the dance of rain
And reals the rules of thunder
You can't hold in a pool of sadness
Cause it will come from under
You got the solution buried in the sand
Keep on diggin' and take back, take back
All of your land
Now the landscape reaches unreal
Past the time to what you feel
Your playin' time in a watch band
Got the smaller end of the deal
Civil unrest crowds the streets

In a time of a changing nation
Another war, another shore
We're all losing our patience
Stop that man from taking your land
Holy place forsaken
Cover your head and protect your friend
Your mind starts to shakin'
Your holding the feeling
Strangest color green
Stop looking behind you and check out
Check out this scene
You've got the solution strangest color green
Keep on diggin' and take back, take back
