"Beginning From The End"

Visit "[Beginning From The End](#)" on MotoLyrics.com

Seems like I've been here before.
Beginning from the end.
Seems like I know what's in store.
Beginning from the end.

Thought I saw the future now
Beginning from the end.
I held it like a rose.
It slipped away again.

How many times can you fall
Before it all feels the same?
How many times can you drown
Before you can't be holy again?

Slay the unicorn.

Feeling like I crashed to earth.
Nobody saw me flying.
The airwaves let me down.
Nobody saw me flying.

Seems like I've been here before.
Beginning from the end.
Seems like I've been here before.
Beginning from the end.
Beginning from the end.
Beginning from the end...
