"One Big Party"

Heard the singer singing
Playing in a band
Talking 'bout the lives he held
In his hand

Tried to shake my feelings
I tried to scream my doubts
He couldn't know what he
Was talkin' 'bout

BRIDGE

'Cause it's a feeling we all live for
It's a thing that we all want
How come everything
I'm doing comes out wrong

CHORUS

It's just one big party
One big party for you and me.

He's taken all your feelings
And never paid a cent
He's lived in your emotions
He don't believe in rent.

CHORUS X2
