"The La La Song"

Visit "[The La La Song](#)" on MotoLyrics.com

i just feel real good today, yeah
la la la la la la la,
eh shawty kush it put in the mall, should i heard it
before,
but not the abs girl from your video
i said jeez, looks like just what you need
take these here keys, meet me in the double â€
she said, i ain't lie, see i know just what they like
to you she is all that but to me she's is alright
but i'm still gonna hit all night, so the mama hit them
lights
and i'ma knock it down like i had a laser sight
she said you should leave i don't but tonight i think i
might
â€ on me, sitting on it like a motor bike
so â€ her just my type, but we gotta this right, we gotta
hurry up girl
i cannot miss my flight
pull over the light, everybody say â€
thumbs up, round of applause, u la la la
that money maker hater disappeared like tada
and my music make your woman blow me kisses like
muah,
i love you too
i'm back stage after shows doing interviews
or in l.a. with an actress by the swimming pool
it's real life music, everything i spit is true
if they could do it how we did it, they would have did it
too, ah
best new artist â€ i used to just produce but found that
this was more fun
still grammy nominated, i tell my moma i made it
cause she tell me every time my first song is still her
favorite
best new artist â€ i used to just produce but found that
this was more fun
still grammy nominated, i tell my moma i made it
cause she tell me every time my first song is still her
favorite
and i know i'm gonna be famous, i'm just hoping i'll be
handling it

but until then i'm still will bad chicks, got â€¦
â€¦mama see success that she just try to get her hands
on it
she said before she met me, she never see what
handsome man is like
but it's cool, cause i lied about her friend
the one i said i never met but had her in my bed
oops, must have slipped my mind, but where were you,
let's rewind
it was giving me some lime about how you think i'm so
fine
such a â€¦

la la la la la la la la la la, singing, la la la la la la la
la la
la la la la la la la la la la, la la la la la la la la la
now what it is, is what it isâ€¦
outside the hallways, what it is, is what it is.
