This is for you mister
I don't know your name
I saw you two months ago
I wonder if you remember me like I remember you

And I don't know if this means anything to you
But I can't stop thinking of you
And I don't know if this means anything to you
But I can't stop thinking of you

This is for you Mister Movie Man
And everything you seem to understand
And while you are up somewhere in the sky
I'll plan on you if you don't mind

And I don't know if this means anything to you
But I can't stop thinking of you
And I don't know if this means anything to you
But I can't stop thinking of you

Maybe I'll drive out your way one day
And settle this once and for all
I'll settle this, I'll settle this
Once and for all

This is for you visionary man
And everything in me you began
I know that I said I was over you
But remind me of why why why we're through

I don't know if this means anything to you
I can't stop thinking of you
And I don't know if this means anything to you
But I can't stop thinking of you

And I don't know if this means anything to you
But I can't stop thinking of you
And I don't know if this means anything to you
But I can't stop thinking of you
