It's been so long
Since I've been here
It seems like years
Since I've seen you, my dear

All those days are gone
Did you find what you were looking for?
Is your life complete?
Or is it missing me?

If you wanna get it
You gotta get it while it's still young
If you wanna get it, get it on
Get it on, get it on

It's so damn nice
To see you here
I remember every face
As if it was only yesterday

And it feels so good
Feeling up your old neighborhood
Everything has changed
But one thing remains

If you wanna get it
You gotta get it while it's still young
If you wanna get it, get it on
Get it on, get it on

If you wanna get it
You gotta get it while it's still young
If you wanna get it, get it on
Get it on, get it on

Get it on

If you wanna get it
You gotta get it while it's still young
If you wanna get it, get it on
Get it on, get it on

If you wanna get it
You gotta get it while it's still young
If you wanna get it, get it on
Get it on, get it on

Get it on
Get it on, get it on
Get it on
Get it on, get it on

Get it on
Get it on, get it on
Get it on
Get it on, get it on

Get it on
Get it on, get it on
Get it on
Get it on, get it on

Get it on
Get it on, get it on
Get it on
Get it on, get it on

Get it on
Get it on, get it on
Get it on
Get it on, get it on

Get it on
Get it on, get it on
Get it on
Get it on, get it on
