"Let's Waste Some Time"

Visit "[Let's Waste Some Time](#)" on MotoLyrics.com

Once upon a time my heart was still
I would walk these streets and end up nowhere

Once upon a dream you were my thrill
I could never think of love without you

My life was so complicated
Playing cool's so overrated
All we got to do is spend some time

We could make a quiet exit
Slip away in a minute
We'll forget what was maybe just because
Come on baby lets waste some time

Here beneath the moon and starry sky
My hearts beating for you like a samba

Let the music play my radio
We could rescue love with just one kiss oh...

All the things we could uncover
One thing could lead to another
Anybody here could plainly see
We could make a quiet exit
Slip away in a minute
We'll forget what was maybe just because
Come on baby lets waste some time
