I'm hard on myself early in the morning
When the sun breaks out I'm still conforming
to the ways of the world, the ways of the heart
Where do I begin and how do I get a start

I'm tough on myself as the day goes by
Love's moving fast before my eyes
It's the way of the world, the way of the heart
Life's too hard to stop even harder to start over

Chorus:

So I just take over then
I'll never get used to this
It's so late, and it's hitting this
The world's getting colder and I'm getting older
It's gotta be time that I live, time that I live
I'm hard on myself later in the evening
When the sun goes down I'm still believing
In the ways of the world, the ways of the heart
Makes me wanna stop. And start all over

Chorus.

I gotta pick myself up
No I'm not the same
The pieces don't fit right together this way
Cause I'm losing sleep and I'm losing heart

Chorus.
