

## Molly Marlette "Windy Streets"

Visit "[Windy Streets](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I was on the road last night  
Closed in walls of buildings high up  
Like a giant hallway through the town  
I feel alone inside a crowd  
Feel at home away from the house  
I feel it is time to find my way out

I can see from the top of the city  
Of the windy streets  
Oh, oh oh  
I wonder where they'll go

It just hit me it's assumed  
Get past things to follow through  
To make them right even if nothings true  
I'll walk this way a little longer  
Seeing it make my walking stronger  
Unconventional though it may be

I can see from the top of the city  
Of the windy streets  
Oh, oh oh

I'm looking for a different way  
To go about my day to day  
I'm looking for a way to say exactly what I  
mean  
Someone maybe far away  
Maybe in a different place  
Someone no one knows my name  
It might be what I need

I can see from the top of the city  
Of the windy streets  
Oh, oh oh  
I can be carried far away  
Taken by those windy streets  
Oh, oh oh  
I wonder where they'll go
