making through life is harder than it seems to me  
life is just now more than larger in a horror dream  
running away from the lights they are blue and red  
hoping that they will not find me in somebody's shed  
make no noise!!!  
i see them coming  
they see me running  
running from the things

they're getting louder  
they're getting closer  
i am growing wings  
make no noise!!!

choures

they got me now  
i dont know how  
and they say wow  
then boom bang pow

choures
