Come on now everybody
Make your voice heard
Make your voice heard
Give God to everybody
Make your voice heard
Make your voice heard
Time is ticking, people are sinking, down, away, far
from God
Far from God

I won't deny You
They can push me off the edge but I
I won't deny You
They can try to blind me with their lies
I won't deny You
This I shout out 'cause I know You God
I won't deny You
I won't deny You

Come on now everybody
Make your voice heard
Make your voice heard
Show love to everybody
Make your voice heard
Make your voice heard
Time is ticking, people are sinking, down, away, far
from God
Far from God
