This cave full of crystal
Explicit, precise
Grounded by pounding waves of white
Hue water washed color
Amber and scarlet
Trance like I fall victim
Hypnotic...Hypnotic...Hypnotic...

The smoke from the fire
Circles my eyes
I'm still spinning from these sudden goodbyes
As we walk on this delicate strand
I can feel your heart beating
It rests in my hands
It rests in my....hands

I want to feel
Your breath
Your touch
As you whisper in my ear when the pain is too much
I want to love
I want to try
To feel the love I've found on the inside
Oh I...I...I...I will

(hypnotic hypnotic hypnotic)

Water fills my eyes
Salty and hot
I can't tell the difference
Between what I am and what I'm not
Love caustic and brutal
Carves through the panes
Trapped your reflection and captured your face
It captured your...face

I want to feel
Your breath
Your touch
As you whisper in my ear when the pain is too much
I want to love

I want to try
To feel the love I've found on the inside
Oh I...I...I...I will

Your breath
And your touch
And your breath
And your touch
It's too much

I want to feel
Your breath
Your touch
As you whisper in my ear when the pain is too much
I want to love
I want to try
To feel the love I've found on the inside
Oh I...I...I...I will
