No, I won't interfere  
I'm the only sound you'll ever need to hear  
Listen to my breath so near  
Allow me to be every noise in your ear

Since that day I wake up early  
Every morning which is good  
But my stomach's churning, call me  
It would be nice if you could

Some days I question the suggestion  
You might not exist at all  
Can we meet and talk it over?  
Would you be kind enough to call?

Over and over, it's over all over  
And over and over and over and over  
And over and over, it's over all over  
And over and over and over and over and

No, there's no middle ground  
Your off in another story or merry-go-round  
No, there'll be no measured terms  
You fly in the face of the way the world turns

Like a frozen tidal wave  
Since that day I'm standing still  
You brought me here and I accept  
Though you regret I never will

Just one sweet word  
And then a smile from you  
Is almost worth everything  
I've given all I had to give  
But you gave up giving in

You are everywhere I go  
All the places we have been  
I can't imagine where you are  
For you are all I've ever seen

Over and over, it's over all over

And over and over and over and over  
And over and over, it?s over all over  
And over and over and over and over and

Over and over, it?s over all over  
And over and over and over and over  
And over and over, it?s over all over  
And over and over and over and over and

Over and over, it?s over all over  
And over and over and over and over  
Over and over and

All I?ve ever known  
All I?ve ever seen  
Places that I go  
Places that we?ve been
