"Divide & Conquer"

Segregation of the races.
Religious feuds and hatred.

Pitting brother against brother.
HATRED.
Turning friend to foe.

Where is your allegiance?
Where do you stand?
Blind submission threatens the survival of the free
man... and if you stand
For nothing, I will still stand for you.

This is more than a call to arms!
This is a fucking revolution!

Our country is not the only thing to which we owe our
allegiance. It is
Also owed to justice and to humanity. Patriotism
consists not in waving the
Flag, but in striving that our country shall be righteous
as well as
Strong.

Divide & conquer.
Tolerance and apathy are the last virtues of a dying
society.

Breed genocide of a feudal race.
This is a mass execution.

Tolerance and apathy are the last virtues of a dying
society.
Where is your allegiance?
Where do you stand?
Blind submission threatens the survival of the free
man... and if you stand
For nothing, I will still stand for you.

This is more than a call to arms!
This is a fucking revolution!

In the beginning of a change the patriot is a scarce
man, and brave, and
Hated, and scorned. When his cause succeeds, the
timid join him for then it
Costs nothing to be a patriot.

Depreciation of self.
Corrosion of the classes.
Break the boundaries that bring confusion to the
masses.
Opposition stirred the goal to inflict a mortal wound in
the fragile heart
Of man.
Irreparable and internal, it will destroy us from within.

Divide & conquer.
Divide & conquer.
