"Injustice For All"

Justice is forgotten and liberty is dead.
Justice is forgotten and liberty is dead.
There is no justice!
This is our time for revenge, fuck justice we want you
dead.
No second chance, you've had your chance at
redemption, instead you sold us
Out and now your life is threatened.
Please believe everything you hear and see and never,
ever question
Authority.
Please believe everything you hear and see and never,
ever question
Authority.
Together we stand, divided we fall.
A force united we will crush you all.
Monuments of injustice, we will watch you fall, and like
the lives you have
Broken we will break down this wall.
One ruler, one government, one religion, one choice.
Extermination, reduce the population; there is no doubt
you will try to
Kill me, but will never kill what I believe.
You're fucking dead to me.
Together we stand, divided we fall.
A force united we will crush you all.
Monuments of injustice, we will watch you fall, and like
the lives you have
Broken we will break down this wall.
The scales of justice have tipped in your favor; time
and time again your
Lies have slipped breeding anger.
With time as our witness, history as our judge, we'll
cast you to the
Abyss, and we will rise above.
Death, slavery, and the pursuit of hatred.
Or
Life, liberty, and the pursuit of happiness.
Please believe everything you hear and see and never,
ever question
Authority.

Together we stand, divided we fall.
A force united we will crush you all.
Together we stand, divided we fall.
A force united we will crush you all.
