Push it away
Cold in the land of grey
Suck it all in
I'm watchin them cringe
Damn what a waste
Boy's got that perscription taste
He's dying away
Look at him fabe
There has to be another way

The aftermath is devastating
Writhing, leave me medicating
The hating, the horror
Haunts my day
If I can get a chance to brush off this decay

Who gives a fuck
Gimme what I need
Another dose

And I stop shaking tonight
(Pull myself up off the floor)
Kneel down and exorcise (2x)
(Prepare for what's in store)
I'm resurrecting

Lock it away
Beneath the pain
Beneath the insane
Take it all in
I'll take the blame
Pushing the grave
The cancer radiates in her face
You ruined my stay
So I'll destroy the faith
There has to be another way
I'm in the rubble contemplating
The pills, that thrills
Killing not aiding
Hating the horror
That haunts my day

If I could get another chance
I'd probably throw it away

Who gives a fuck
Gimme what I need
Another dose
I'll resurrect
For all to see
And death to those
Who forsaken me

And I stop shaking tonight
(Pull myself up off the floor)
Kneel down and exorcise (2x)
(Prepare for what's in store)
I'm resurrecting

Dead man walkin' baby
Call 'em how I see 'em
Killin' time killin' pain baby
But instead you're killin' me...

Back away
From the pain
It's insane
And I'll throw away
All the things that sting
So back away
It's okay
You're a stain
And now you'll rot away
It's sickening

And I stop shaking tonight
(Pull myself up off the floor)
Kneel down and exorcise (2x)
(Prepare for what's in store)
I'm resurrecting
