Its sad what we are today. it's sad that we don't care.
Its sad we're in such a hurry to get nowhere.
Its sad we can't think for ourselves it's sad that were
wasting our lives away.
Workin 9 to five why do we pay to stay alive.

I never asked to be born so why should i waste my life
working everyday.
With nothing to show for it is money really that
important anyway

Its sad we don't care that we are running to the grave
Its sad we live our lives as the corporate slave.
Its sad that they control everything we do
Its sad they take our lives away from me and you
For the weekly reward we were taught to accept by the
generation before us

I never asked to be born so why should i waste my life
working everyday
With nothing to show for it is money really that
important anyway.
