U and me and me U and me U and me  
U and me U and me U and me forever  
(2x)

Baby I must say that  
you've got me groovy  
You keep it going  
shake your body with me  
Now it's time  
let's start the party  
Hear the music  
setting me free

Come on  
come on  
Check out the dope out  
This one is ta move or not  
And if ya did come ta rock  
S rock ya  
Anyways can do it with or without ya  
Kick your shoes do what you wanna do  
And if ya ask who I say you  
Now you know what's you up  
U and me forever non stop

U and me ...

Baby I can see  
you're driving me crazy  
I wanna jump and jam with you  
I can if I please  
Play with your feelings  
But is the music  
setting me free  
So don't try ta hide it's showin'  
In the way you look make me know and  
I'm on a high trip  
Got ya in my grip  
On a fast tip sip  
Don't rip your dip  
No pause - not know  
Get up get down get up

You know how  
Fast the beat is flowin'  
U and me let's keep this jam goin'

U and me ...

Once again it's time ta get hip  
A jam on it  
And don't miss your tip  
Cause when I drop lercs  
I got the base  
Boomin' on a high level in the place  
So get down nine to vile party time  
Lay back let the speakers  
Control your mind  
And I control the mike  
To make it sound right  
Is U and me forever non stop

U and me ...
