You didn't notice me right beside you
I said you looked like someone that I knew
A little lie to get you to talk to me awhile
You're eyes oh how they melt me
Your smile, girl heaven help me
Your lips kiss and tell me a thing or two

Oh, the happy ending this could be
Swept away in love and all it's glory
One minute hearts are lonely
The next each other's only
Then darlin', I just know we'd fall that fast
So don't you ever think it can't
Love happens just like that

I could try and act like I don't care
But, bein' shy that gets me nowhere
Though I admit, I'm a little bit scared to talk to you
A risk, yeah maybe
But it's one worth taking
'Cause I see a love in the making here with you

Oh, the happy ending this could be
Swept away in love and all it's glory
One minute hearts are lonely
The next each other's only
Then darlin', I just know we'd fall that fast
So don't you ever think it can't
Love happens just like
Lightning striking, flames igniting
In an instant, souls igniting

One minute hearts are lonely
Then the next each other's only
Then darlin' I just know we'd fall that fast
So don't you ever think it can't
Love happens just like
Don't you ever think it can't
Love happens just like that
It happens just like that
Love happens just like that
