Well this world can get you down
And leave you spinning 'round and 'round
Not knowing what's for real
On this crazy wheel
Is part of the deal, baby

There's only one sure thing I know
I never want to let you go
I'll be here by your side
On this circus ride
Through every drop and climb
'Til the end of time

When everything is moving fast
It's hard to stay together
I know that we can make it last
We'll find a way to weather
Any storm heaven sends
We'll see it through to the end
We've got it made if you can just believe
You'll always be loved by me

And when you go to bed at night
And I'm not there to hold you tight
I'll love you from afar
No matter where you are
I'll count the days 'til when
I'm with you again

When everything is moving fast
It's hard to stay together
I know that we can make it last
We'll find a way to weather
Any storm heaven sends
We'll see it through to the end
We've got it made if you can just believe
You'll always be loved by me

And when we're growin' old
I'll be the one to hold you close

When everything is fading fast

We'll face the end together
We'll find a way to make it past
One final storm to weather
And even after the end
I will be with you again
We've got it made if you can just believe
You'll always be loved by me
You'll always be loved
By me
By me
When everything is moving fast
We'll find a way to make it past
I will be with you again
I will be with you again
I will be with you again
