There's a party here in Agrabah
And the Party's all for me
Just look you guys, at where we are
And how our dreams have come to be

There's a party here in Agrabah
And I can't believe it's true
After all this waiting, here we are
We'll fin'ly get to say "I do"

I never ever had a real family
I never ever had a real true friend
Someone who could just understand me
Hey, come on Aladdin, this mush has gotta end!

There's a party here in Agrabah
And it's starting right away
Let's get you dressed 'cause you're the star!
Hey, come on, it's your wedding day!

Aladdin's getting married
And it's gonna be the wedding of
The century Amazing how
Aladdin could have come so far
They're fin'ly getting married!
They're fin'ly getting married!
They're fin'ly getting married!
Look at all these presents!
We're fin'ly getting married!
They're fin'ly getting married!
I'm fin'ly getting married!
They're fin'ly getting married!

At the party in Agrabah

Come along with me, such festivity
Come along with me to the party in Agrabah
