Was feeling all alone

Looking to the sky

Nothing there but end this great

Time was passing by

\*suddenly a change

Rainbow covered sky

Right the snow's no end

From my first true friend

That's the reason why

\*\*the years were come and go

No matter what we do

But time stands still when I'm with you

Was feeling all alone

Liker standing by

Just existing day by day

Time was passing by

Repeat\*

Repeat\*\*
