And running through my head there's all the once I've met

No matter about your sex, age, color or even hair
If looking for that someone is making your head ache

Don't worry 'cause you'll find a way, itâ€™ll come to you

Don't worry 'cause you'll find a way, itâ€™ll come to you

Sometimes when least expected that person will come through

How lucky I was that day when I first met you

Ain't worry 'cause I've found the way, it came to me

Ain't worry 'cause I've found the way, it came to me

And now the lesson is learned sometime the time dictates

What is the best for you, be brave we're all the same

I'm happy 'cause I've found the love, I'm drunk with love

I'm happy 'cause I've found the love

Thanks for all the ones that have been through my life

You're all the part of making who I am

I'm happy 'cause I'm in love, and love the life I live

I'm happy 'cause I'm in love, and share my life with you

I'm happy 'cause I'm in love, and love the life I live

I'm happy 'cause I'm in love, and share my life with you
