Like a roulette my life turns
I hope it stops on a good number
We don't know what is to come
Where my life will go? Otherwise I wonder

You can win, you can loose
You'll never know if you don't choose
You have to bid for the highest card
If you do it, oh babe, it won't be bad

Now I've won a thousand chips
But all that I only want is to get you
I can't wait to kiss your lips
I wanna think it could be true

I can win, I can loose
I'll never know if I don't choose
I'm just bid for you, all my chips and all my life
To get what I think is the best prize
All my chips and all my life for the best prize

Chips and life for the best prize
