Everywhere I go you linger in my mind  
I've been waiting so long for a special guy  
Then you came to lift me up and make me fly  
Chorus  
Baby don't go  
I just want you here  
Right by your side  
I won't hide my tears  
Baby don't go  
Waited for so long  
I want you so  
Come and hold me strong  
Gotta feeling that I can't resist to  
>From the moment I laid my eyes on you  
Honey tell me what you wanna do  
'Cause my heart is getting lost inside of you  
Hold me in your arms and whisper in my ear  
Guess I've always known that you would say goodbye  
(Say goodbye)  
Time and time again  
You love has made cry  
(Made me cry)  
I spent hours trying to get you on the phone  
(On the phone)  
Lying on my bed feeling so alone  
(Oehoehoe)  
Chorus  
(Come on baby hold me strong)  
Gotta feeling that I can't resist to  
>From the moment I laid my eyes on you  
Honey tell me what you wanna do  
'Cause my heart is getting lost inside of you  
Hold me in your arms and whisper in my ear  
Keep my body warm, say the words I long to hear  
Hold me in your arms like you'll never go away  
I'm waiting for your touch just beggin' you to stay  
Baby don't go baby don't go
