Oh i loved this girl so much
But i wasn't allowed to touch
I wasn't sure wether she loved me, too.
But there's one thing i know it's true...

I love my hair

My girlfriend said i'm so ugly
And that is why she left me
She said it's cause of my hair
What she said was not fair - yeah

I love my hair

My hairs are yellow and red
And they're covered round my head
They are growin through my face
With this hairs i can't race

I am blind
But i don't mind
I leave them behind
Nevermind

I love my hair
