"Passenger Train"

Visit "[Passenger Train](#)" on MotoLyrics.com

People come and people go
On the passenger train
On the passenger train.
They go to the North
And they go to the South,
They go to the West and
They go to the East,
On the train, the passenger train.
Taking time to visit love ones.
Ooa Ooa.
Taking time to go somewhere
And maybe have some fun.
Chorus: (People come and people go...)
Looking out the window,
So many shapes you see.
Trees and clouds go passing by,
Colors racing free.
Chorus: (People come and people go...)
There goes the train,
There goes the train,
There goes the train so full of people.
