Snupe:

Hands upon my ears while my peers laugh at the last
song
but stop chuckleing this is new and now the past is
gone
now who can kick a flow better than this
veterans try pulling away
never will you leave I getum with this
and hitum with this
me'n'Pep see'n reps be'n kept written in lists of gold
call upon your forces
I force this to your memory so switcha
cause niggaz getting took like a picture
developin swell open your mind as I kick another funky
one
I cum on back more times than a porno flick
my style is sweeter than Richard Simmons
but still got women
lime to a lemon
lemon to a lime
Pastor Snupe yeah you know I'm slick
control your girl cause she's rideing all over my. . .
genitals
men with those
on the shrink get no play
I think but I would'nt know
and I could'nt go
out like a dike
mic check is it clear
fear nothing bluffing
never ever severed to the rear
no one can do this like I can
(now why is that?)
cause me'n' Pep we do it grand. . .

[CHORUS:]

"Go back to school when your summer time's over
Go back to school when your summer time is done"

[REPEAT]

Pep love:

I'm brilliant
chill wit the niggaz that are massive
ask Cas if you didnt know your slow like mollasses
I'm fast
wit the gas
hit the grass
indica gives a blast
it's the last Mister Mean
or is he pleasant as a rose to the hoes
a future to the present
buda bie bie
I fly heads like phasant
when I bust I must destrength
never lack luster black
whats the mack up to next
I'm vexed
I use a bat to flex if I gotta gat I'll buck you
dangerous
your brain is clutched
game is touched now everybody need to explain to us
the ways that they been plaigerisen way that I've been
stylin
get off Snupe's dick or I'll be forced to go buckwhy-
in a minute or two
I'm in it but you
are about to be finished cause once again its my crew
who's a looser snoozer on the Shamen
'n' Snupe
groups be on the charlie
and ooh, we
get the job done
slob on my Knob one time
phuck the cops
you don't stop the crime and I'm out!
