So you fell out of the nest  
Pigeon feathers in your mouth  
This considered Son Of Letters  
Is taking you out  
Our father who art in heaven  
Made a circle around my brethren  
A circle you did cross  
Let me be more specific  
I'm the model, you're the mythic  
And NOW you get tossed  
Welly, welly, well  
Who doesn't owe to you?  
No guardian nor craft  
Yes, I've read my Plato, too  
This battle-talk that I'm spitting  
Is my war correspondent ambitions  
Coming to light  
Semper Fi, E Pluribus Unim  
My arm's extended; who am I fooling?  
And NOW you get wiped  
City Of Brotherly Love
