I heard of a place  
That Time can't erase  
Of beauty and grace

Beulah!

You scoff at my card  
Guess I'm no Abelard  
I don't know just how far  
is Beulah

Would only to song  
weren't indulgent and wrong  
and shadow a long twilight  
Always to play  
and sleep through the day  
for music and night

Enough with these books  
Carrion and hooks  
Ill will and looks  
But to Beulah

To pull the forefront  
Health for starvation  
I've grown impatient  
For Beulah
