Gonna find a way to get out
Turning my whole world upside down
When you realize, you'll find the time
And everything will just work out fine

Every day I sit down and wait
Should've know I'd left it too late
But I've seen you cry, I realize
That everything will just work out fine

So, let love always shine on
Turn the light on till everyone goes blind
And we'll just stay together
Make it better all the time

Did you say that love has it's price?
Paying with the time of our lives
It's not a crime, so realize
That everything will work out alright

Strip away your hopes and your fears
Drowning in the tracks of my tears
Stop the lies and dry your eyes
And everything will work out alright

So, let love always shine on
Turn the light on till everyone goes blind
And we'll just stay together
Make it better all the time

Let love always shine on
Turn the light on till everyone goes blind
And we'll just stay together
Make it better all the time

Just for a day, I'll slip away
'Cause there's nothin' left
And it's all such a mess
And I can't recall any good times at all

So, let love always shine on
Turn the light on till everyone goes blind

And we'll just stay together
Make it better all the time

Let love always shine on
Turn the light on till everyone goes blind
And we'll just stay together
Make it better all the time
