

## Count Basic "4 Oceans"

Visit "[4 Oceans](#)" on MotoLyrics.com

From the cradle to the grave  
Happiness is what we're searching for  
But in fact all we gain  
is an endless chain of pain  
Oh why, why don't we realize

Throughout your lives you shed more tears  
Than there's water in the four oceans  
In all those years your only chance  
Is your faith, your love and devotion  
Oh why, why don't we realize

On and on, right or wrong  
The big wheel of life keeps on turning  
What we do here and now  
Will bear fruit in lives to come  
Oh lord if only we came to see that

Just open your eyes and see  
What's going on  
And take the first step to be  
Light and free  
As free as you hoped to be
