Talking on the phone boy
You know it's alright
But I need you right next to me
Share what's inside
I enjoy your conversation
To me it's so nice
But if you can't be here
Then I'll find someone who can

I don't wanna wait 'til tomorrow
Cause I've waited too long
And this feeling is so strong
I don't wanna wait 'til tomorrow
Another day is too long
And some love is what I want

I wanna feel your body
Holding me tight
Cause I need some warmth and tenderness
Share what's inside
I want more than company
Just for one night
And if you can't be there
Then I'll find someone who can

I want the touching
The holding
Ooh baby the feeling
The magic deep inside
