Early morning  
In paradise  
Not a worry  
Here to cloud my mind  
Sun is shining on me bright  
Keeps on lighting up my life  
There's a gentle breeze that takes me on a fancy ride  
Takes me where I wanna stay for good

Feels like I'm falling in love  
I'm falling in love with life  
Feels like I'm falling in love  
I'm falling in love with life  
I don't wanna come down

Up high  
High I fly  
My spirit's rising to the sky  
No more ties to hold me down when I'm taking off the  
ground  
Leaving all my doubts all my troubles way behind me  
Takes me where I wanna stay for good

I don't worry  
Cause it's all behind me  
Can you feel it  
Cause it's all behind me  
Taking off the ground you see  
Would you like to come with me  
On a magic carpet ride  
We'll run away with time  
So throw your cares away  
The time has come today  
To get on with your lives  
And fall in love with life
