I have this dream inside my head
That's waiting to be born
It sits around, torments me
It never leaves me alone
It shows me a life I could never have
All the possibilities without the bad

Maybe there's something I can believe in
Maybe there's hope for me after all
Maybe I'm not as lost as I'm thinking
Maybe there is hope for me after...

I think that I'm unsure of now what's to come
At least I know inside of me the emptiness is gone
I finally feel something again
Remnants of what my life might have been

Maybe there's something I can believe in
Maybe there's hope for me after all
Maybe I'm not as lost as I'm thinking
Maybe there is hope for me after all

When things are too much for my mind
There's just too much I can't hold inside
But every now and then I make it by
Just long enough, just long enough

Do you know that I was alone
When I lost my soul?
Don't you see that I had to learn
To follow my dreams
To follow my dreams
To follow my dreams

Maybe there's something I can believe in
Maybe there's hope for me after all
Maybe I'm not as lost as I'm thinking
Maybe there is hope for me after all
