i estimated your worth today. and i'm not gonna listen to what you say. and i'm never gonna go back to work, you're not my boss, you're just a fucking jerk. you're pathetic, you're disgusting. you're pathetic, you make me sick. i estimated your worth today, you're shit. you can go out of business for all i care. your way of life isn't going anywhere. i'm not stupid and i won't be led by pricks like you who'd be better off dead. you're pathetic, you're disgusting. you're pathetic, you make me sick. i estimated your worth today, you're shit.
