"Hinkley Had A Vision"

Visit "[Hinkley Had A Vision](#)" on MotoLyrics.com

can you believe we're being plagued by religion still?
these christians aren't about to give up. it's the same
countless fools go on and on and on and on and...
closest thing to witches i've ever seen, let's get out the
gas and set them on fire! aw teach me how to pray
good christian. if it works you'll all be dead. we'll see
the secret to salvation, for me it's when you're dead,
you're dead, you're dead. i can't believe they're
serious, superstitious spastic fools. they live for
everlasting life, and ruin my life here on earth. they
must be so intelligent, to know so much more than
me... i wanna take the president, chop off his head,
and mail it to them in a garbage bag. hinkley had a
vision, hinkley had a vision.
