i've been told a thing or two by you about nothing at all
so if you believe in what you say ok, just go away. don't
tell me i don't understand we've paid you to put us in
the palm of your hand so take your little toys and get
outta here don't wanna live in fear washington, you're
no fun, you're no fun washington look down the barrel
of a gun. i found a suitable spot for you it's underneath
this tombstone just for you. you've really had it coming
and you know it's true. washington, you're no fun,
you're no fun washington, look down the barrel of a
gun.
