

Contingency Plan "Senceless"

Visit "[Senceless](#)" on MotoLyrics.com

Violence kills the kids off just like a plague.
The sights and sounded of it numbs my brain.
Now i can't bear to watch my heart stops as another
body drops.

And another senceless fight claims another life what
were these kids thinking
too much drugs, too much drinking

Another Body lays cold in the street.
The Screems get drowned out by the urban beat.
As the blood fills the cracks his friends run away with
out looking back.

And another senceless fight claims another life what
were these kids thinking
too much drugs, too much drinking.
