Lost in time no time in space Never thought wed ever
fade

This ain't the blues This ain't nothin new

Are we fallin off again Someone pushed us from the
ledge

No crime no sin We just don't fit in

Lets get lost Lost in Space Just two people a little out of
place Nothing's wrong Everything's fine Just lost in time

Woke up in a lost and found Don't understand the here
and

now This aint my world Glad you're in my world

Lets get lost Lost in space Just two people a little out of
place Nothing's wrong Everything's fine Just lost in time

Sorry it don't get better Lets burn all the bridges we
cross

Sorry it don't get better Lets burn all the people we
know

This ain't the blues This ain't nothing new

Lets get lost This ain't the blues Lets get Lost This ain't
the blues Lets get lost This ain't the blues Lets get lost
Lets get lost Lets get lost Lets get lost Lets get lost Lets
get lost lets get lost Lets get lost Lets get lost This ain't
the
blues
