Quit Foolin Yourself

I just love the way
The way you make them feel so bad
And it pains me how
Sympathy makes you so glad

Surely we all forgot of that one little knot
Or that obvious seam that shows truth as it gleams
You don't have what it takes just to handle mistakes
Or the balls to withstand what the real world could hand

Keep manufacturing tears
Bleed all the fake blood you've bought
Do all it takes just to finish
This war that you haven't faught

You'd love the world to watch you cry
Though it's not so hard so see
You have nothing else besides
These stupid prophecies

Though it's sad but untrue, things that you'll never do
All this painful "disgrace" never even took place
And your trauma and spite simply formed overnight
Your a liar, a thief, who invents his own grief

Keep manufacturing tears
Bleed all the fake blood you've bought
Do all it takes just to finish
This war that you haven't faught
