

## Centaur "Another Beginning"

Visit "[Another Beginning](#)" on MotoLyrics.com

I see you image before me, your picture on the wall,  
why did you leave me...alone  
The day and night...endless, a part of me has gone  
I'm not so strong

How could you hurt me so, I thought you loved me,  
can't you feel the pain, you left me behind,  
what was the reason why...something else on the other  
side

Did someone come, to guide you on your way,  
was it something, to make eternity worthwhile  
Please let me know, just a simple sign  
show me the door, just the door

You didn't hurt me, now I know you love me  
I feel no more pain, no longer left behind  
There is a reason, there is another side
