

## Centaur "New Beginning"

Visit "[New Beginning](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Travelling through the vast unknown  
reaching point, asking myself  
is this really it? Is there nothing else  
What is this all supposed to mean

Is everything important, or is it meaningless  
Is everything good, or is it really bad

Will I find the way that I should go

Whom can I trust, who have I got to trust  
whom can I trust...questions but no answers

What's like to live forever, when you don't know what  
for  
perhaps all questions are answered, in the vast  
unknown

Is anything important, or is it meaningless  
Is anything good, or is it really bad

Will I find the way that I should go

Whom can I trust, who have I got to trust  
whom can I trust...questions but no answers
