Time's out, where're the keys to the car  
no time, a thousand million things to do  
I'm running like mad, so I don't forget  
time's short, why have I got a watch

Gentlemen, you're here let's be clear  
we're disussing doe, so bow down low,  
bullshit walks, and money talks  
I think we're done, so let's adjourn

Time's out, I forgot the family  
please James, get the cheque book...now

Gentlemen, you're here let's be clear  
we're discussing doe, so bow down low,  
bullshit walks, and monye talks  
I think we're done, so let's adjourn

Did my wife get the doe for the booze  
has my son got enough for another shot  
did my daughter finally find a man,  
thank god for a butler, who knows his job

Time's out, I forgot the family  
please James, get the cheque book...now

Gentlemen, you're here let's be clear  
we're discussing doe, so bow down low,  
bullshit walks, and monye talks  
I think we're done, so let's adjourn

Did my wife get the doe for the booze  
has my son got enough for another shot  
did my daughter finally find a man,  
thank god for a butler, who knows his job
